ABOUT ME

Detail oriented developer with 3+ years of professional, open-source, and volunteer experience. Independent thinker and creative problem solver. Capable of devising clever solutions to complex technical problems , writing thorough documentation, and explaining technical matters in everyday language.

SKILL SUMMARY

- C# / Visual Basic .NET / Perl / Python / JavaScript
- Windows Forms / WPF / HTML / CSS / ASP.NET
- SQL / LINQ / ADO.NET / database design
- Version control (Mercurial / Subversion / TFS)
- Technical documentation / tutoring
- Image editing / basic 3D modeling

EXPERIENCE & ACCOMPLISHMENTS

Codefide (2016-2018, part time)

- Created reports and data entry forms using C# and a custom XML language for a web application to be used by case workers to manage their cases

Open Source Work

- Developed and assisted with a number of open source PC strategy games and roguelike games using C#, Windows Forms, Python, and Perl
- Created desktop client app using C# and WPF for the game matchmaking site <http://pbw.spaceempires.net>

Volunteer Work

- Worked on teams to create websites for nonprofit organizations at the annual Southwest Ohio GiveCamp code jam using C# and ASP.NET

Tata Consultancy Services (2011)

- Fixed bugs in and tested an internal corporate web-based chat client using JavaScript

Developing Methods (2009-2010)

- Assisted in development of web-based HR performance management application using VB.NET, ASP.NET, SQL Server, and JavaScript
- Optimized SQL Server database and improved responsiveness of existing app functionality
- Enhanced in-house ORM code generator used to wrap SQL stored procedures in VB.NET code

ExpeData (through TEKsystems) (2007-2008)

- Enhanced data validation web application using C#, ASP.NET, and JavaScript, adding features such as animation of digital handwriting strokes and UI localization support

University of Cincinnati (2003-2007)

- Developed web application for assisting students in changing majors using C#, ASP.NET, and Microsoft Access
- Tutored other students, helping them with homework for their programming courses
- Provided level 2 technical support to university staff

EDUCATION

University of Cincinnati (Graduated 2007)

- Bachelor of Science, Information Technology
- Graduated magna cum laude
